NATURAL-LOOK WOOD FLUSH INSULATED GARAGE DOORS

CHOOSE A SMOOTH OR A ROUGH SAWN FINISH

Available with a rough sawn or a smooth exterior, the General Flush Garage Door features an inside and outside surface of 1/8" thick, high quality compressed hardboard. These surfaces are waterproof-glued to a kiln dried lumber frame.

The center core is 1-1/8" thick expanded polystyrene foam. A precision machined ship-lap rabbet joint provides a weather-tight closure between door sections.

The sheer simplicity of the smooth flush garage door makes it architecturally compatible with any style home, and lends itself to any custom design trim.

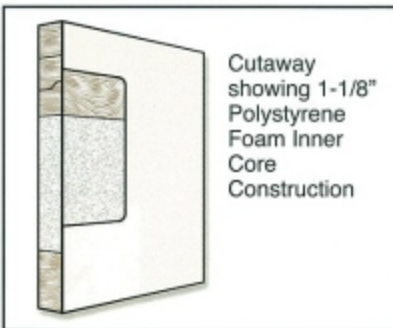

The rough sawn flush door has a rustic rough-wood exterior with a natural, deep cut texture that complements both contemporary and historic homes.

Both smooth and rough-sawn style doors are manufactured to provide great structural strength, outstanding insulating qualities and all the advantages inherent in a wood door. The wood frame, combined with the inner foam core, makes the flush door a natural choice for homeowners who are attentive to energy and fuel conservation.

FEATURES:

- 1-1/8" expanded polystyrene foam core for insulation efficiency.
- Choice of embossed woodgrain or smooth textures.
- All stiles and rails are of kiln dried select grade lumber.
- Wedge-Rite track for a tight-fit, yet still allowing an easy-glide motion without binding or sticking.
- All galvanized steel hardware.

**WITH GENERAL DOORS
QUALITY DOESN'T COST
... IT PAYS!**

WARRANTY

Manufacturer warrants that its garage door will be free from defects in materials and workmanship for a period of one year from the date of purchase, provided it is properly maintained and cared for under normal use and service. This warranty is expressly made in lieu of all other warranties, expressed or implied. The liability of the manufacturer shall be limited to replacing the material or part found to be defective and manufacturer shall not be liable for any loss or damage, either direct, indirect, incidental, or consequential arising out of use or installation of its garage door.
